

Community Construction Update
Short Term 39th Street Full Street Closure – Between 9th and 10th Avenues

9/25/2026
9/30/2026

Update: The Port Authority of New York and New Jersey and its contractor, MLJ, will demobilize and remove a drill rig from the project site. To safely facilitate the breakdown and removal of the drill rig from the site, a temporary roadway closure will be required. **This closure is anticipated to begin on or about October 5, 2026 and is expected to require five hours of closure, weather permitting.** This will occur during the overnight hours from 1:00 AM – 5: 00 AM. This activity is not anticipated to generate significant noise.

Planned Work Activities will include:

- Demobilization of drill rig

Expected Closures and Detours: During the 4-hour period, the Port Authority will be conducting a full roadway closure for vehicular traffic on 39th Street between 9th and 10th Avenues. The south sidewalk and bike lane will remain open.

Please see the graphics to the right for further information. The closed roadway is highlighted in yellow. Businesses on 39th Street will be able to maintain access to their buildings along the eastern section of the street. This portion of the street will operate as a cul-de-sac assisted with flaggers. This condition is similar to the previous closure of 39th Street.

Alternative Travel Routes: All westbound traffic will be detoured to 37th or 41st Streets.
